ISATPHONE2 HANDSET CHARGING

ENABLES 'ALWAYS-ON' HANDSET

ADJUSTABLE IN-BUILT RINGER

TRACKING AND SOS FUNCTIONALITIES VIA ISATPHONE2

SLIM LINE COMPACT INSTALLATION

With easy access to voice and data services for land and sea applications, BEAM IsatDOCK2 Lite enables the IsatPhone2 to be 'always-on' and ready to receive incoming calls. The docking station supports the Assistance button, Personal Alert, and Tracking functionalities of the IsatPhone2 when the handset is docked.

BEAM IsatDOCK2 Lite enables Inmarsat IsatPhone2 handset charging, a USB data port, and in-built ringer. With a slim line compact design, the docking station supports a Bluetooth accessory and optional privacy handset. Moreover, the IsatDOCK2 adaptor is designed to ensure no wear and tear on USB and audio connectors, and can be placed in a dedicated compartment on the docking station when not in use.

Supporting voice, SMS, and circuit-switched data, BEAM IsatDOCK2 Lite is the ideal docking station for land and sea applications.

CHARACTERISTICS

- Weight: 0.56 kg
- Dimensions: 229.0 x 99.0 x 76.0 mm
- Temperatures
  - Operational (°C): -35°C to +85°C
  - Charging (°C): 0°C to +45°C
  - Storage (°C): -20°C to +70°C
- Operating Humidity Range: <75% RH
- Power Consumption: 10-32 V DC, 12V average
- GSPS/GPS antenna connection
- Supports voice, SMS, and circuit-switched data
- Data Port (USB)
- Status LED

IN THE BOX

- IsatDOCK2 Lite Docking Station
- IsatDOCK2 Adaptors
- DC Power Cable
- Universal Mounting Bracket (RAM)
- Quick Start Guide
- User Manual
