ISATPHONE2 HANDSET CHARGING

DEDICATED PERSONAL ALERT BUTTON

IN-BUILT SPEAKER AND MICROPHONE

AUTO-SENSING OFF-HOOK PRIVACY HANDSET

PABX INTEGRATION

Especially designed for maritime applications, BEAM IsatDOCK2 Marine is an IP54-rated intelligent docking station for the IsatPhone 2. The docking station features RJ11/POTS interface, Bluetooth, handsfree speakerphone, and a privacy handset for voice services. It supports standard handsets that are corded upto 600m, cordless, and DECT as well as a PABX system interface.

BEAM IsatDOCK2 Marine enables IsatPhone2 handset charging, a USB data port, and in-built ringer. It supports a Personal Alert functionality via a single button press and can instantly send the GPS position as well as pre-configured messages via SMS or email. Moreover, the docking station enables the installation of an external pendant or alert button at a convenient location.

With an all-in-one design that completely covers the IsatPhone2 handset, in-call and speakerphone muting facilities, and auto-dial and speed dial features, BEAM IsatDOCK2 is the ideal docking station for maritime use.

CHARACTERISTICS

- Weight: 1.67 kg
- Dimensions: 270.0 x 189.0 x 101.0 mm
- Temperatures
  - Operational (°C): -30°C to +70°C
  - Charging (°C): 0°C to +45°C
  - Storage (°C): -35°C to +85°C
